YASH KARAKOTI

Delhi, India | +91 76830 15091 | karakotiyash7@gmail.com | LinkedIn | Portfolio

EDUCATION

Maharishi University of Information Technology *Noida, Uttar Pradesh*

B.Tech, Computer Science (Data Science & AI) · CGPA: 8.3/10 · Expected Graduation: Aug 2027

TECHNICAL SKILLS

Languages: Python, JavaScript, TypeScript, Java, Solidity, SQL

Backend & Databases: Node.js, React JS, Vite, Express.js, Fast API, MongoDB, PostgreSQL, Supabase

AI / ML: LangChain, HuggingFace, RAG Pipelines, ChromaDB

Tools: Git/GitHub, MS Office, Coolify, Postman, Docker, Clerk, Prisma, Jupyter Notebook, VS Code

Exploring: *DevOps, Cloud (AWS/Azure), Docker & CI/CD, SaaS Architecture*

PROJECTS

KrishiMitra - AI-Driven Smart Crop Advisory Platform *Smart India Hackathon 2025*

- **Owned backend development** (Node.js, Express.js, MongoDB, PostgreSQL) and cross-stack debugging as the team's **top contributor (19 of 28 commits)**
- Built REST APIs powering 10 advisory features across crop, weather, soil, and market-intelligence modules, integrating 5 external data sources (IMD, OpenWeatherMap, ISRO Bhuvan, eNAM, APMC)

AlgoBotX - AI Assistant for Algorand Developers *AlgoBharat HackSeries 2025*

- Engineered a RAG-based developer assistant (LangChain, HuggingFace, ChromaDB) delivering real-time smart-contract guidance through Discord
- Shipped 6 core features - AI chat guidance, Indexer-based on-chain lookups, wallet connection, and an AI-powered PyTeal debugger for security/gas issues - across a multi-SDK (Python/JS/Go) toolkit

EXPERIENCE

Sai 100 *Remote*

Full Stack Intern · June 7 - August 7, 2026

- Engineered a full stack B2B product catalog platform for food packaging materials using React, TypeScript and Vite, deploying the final application via Vercel.
- Developed a dynamic customer quoting pipeline by building an EnquiryForm and QuantityModal, utilizing custom React context (QuoteContext) to streamline lead generation and order requests.
- Architected the backend data layer using Node.js and Prisma ORM, successfully managing database schema migrations.

AlgoBharat - Algorand Blockchain Club *Noida, Uttar Pradesh*

Co-Lead · Mar 2024 – Present

- Co-lead a Web3 developer community - run learning sessions, mentor members on debugging and smart-contract issues, and drive hackathon participation
- Create Web3 educational content (technical threads, blog posts) as an ecosystem ambassador across community programs

Open Source Contributor *Remote*

Social Summer of Code · Stellar (Drips) · Apertre 3.0

- Resolved production-level bugs, shipped new features, and improved performance across multiple distributed open-source web projects
- Collaborated through code review and version-control best practices across fast-moving, distributed teams

CERTIFICATIONS

- **SQL, Machine Learning, Data Structures & Python for ML/Visualization** - UpGrad
- **Summer Analytics** (6-Week Program) - Consulting & Analytics Club, IIT Guwahati
- **Python Programming Training** - EduPyramids, SINE, IIT Bombay
- **Cyber Security** - Samatrix.io

ACHIEVEMENTS

- **AlgoBharat HackSeries 2025 - Winner**
- AlgoBharat HackSeries 2 - Semi-Finalist
- UpGrad Bug Buster 2024 - 1st Position
- 5× Akindo WaveHack Grant Recipient
